A Message from The Liberia Chamber of Commerce (LCC)

During his nationwide broadcast on Monday, March 16, 2020, the President of Liberia, Dr. George Manneh Weah, confirmed one (1) case of the Coronavirus disease here in Liberia.

The Liberia Chamber of Commerce is currently developing a number of ways to closely work with the Government of Liberia as partners in support of the safety of the workforce of Liberia. With the recent reported COVID-19 case in Liberia, it is imperative and advisable that members of the business community join us in helping to develop various strategies needed to help prepare our people to fight the disease and to help protect their lives.

The Chamber is urging all businesses to do everything possible to keep their employees healthy and to stay vigilant. As business leaders, we play a vital role in not only preventing the spread of COVID-19, but to also help keep our workforce healthy. The Liberia Chamber of Commerce is currently evaluating its 2020 program and events as scheduled, and will later provide its members some timely updates relating to possible postponements and/or cancellation of some. In addition to concerns surrounding public events, the Chamber encourages businesses to be as flexible as possible in times like these; and to also try as much as possible to ensure continuity of their operational activities.

The Liberia Chamber of Commerce will continue to closely monitor the Coronavirus situation here in Liberia, in the best interest of the business community; and will also provide regular updates through its website (www.liberiachamber.org), social media (Facebook Page: Liberia Chamber of Commerce and Whatsapp group (+231 88029580 to be added – NO PHONE CALLS)). The Chamber encourages members of the business community to reach out to our team if there are concerns. We advise that you all keep us updated regularly whether your business is being impacted. Such communications must be directed to lccsecretarygeneral@gmail.com.

Best Regards,
Charles E. Collins, Sr.
Acting President, LCC
