**REPUBLIC OF LIBERIA
LIBERIA PETROLEUM REGULATORY AUTHORITY**

Project: LIBERIA OFFSHORE LICENSE ROUND 2020

Assignment Title: Solicitation of requests for pre-qualification from Liberian Companies wishing to participate in the upcoming Liberia Offshore License Round 2020.

Issuance Date: March 16, 2020

Closing Date: Extended to JULY 31, 2020

I. Background

The Liberia Petroleum Regulatory Authority (LPRA) was created by an Act of the Legislature in October 2016 following an aggressive reform program within the petroleum sector initiated in 2010. The reform resulted in the development and endorsement of the National Petroleum Policy of Liberia, the NOCAL Act 2013, and the Petroleum (exploration and production) Reform Law, 2014. As an independent regulatory government entity, the LPRA is responsible to conduct technical evaluation of the areas to be opened up for petroleum operations; supervise and manage bid rounds and all other associated processes; enter into petroleum agreements and monitor petroleum operations; administer petroleum rights; supervise petroleum data storage; and assist the Liberia Revenue Authority (LRA) in collecting lawful revenue accruing to the state under all petroleum-related agreements or licenses.

The Government of Liberia, demonstrating its commitment to ensuring Liberian indigenous companies direct involvement in the petroleum sector, amended certain provisions of the New Petroleum Law setting aside a mandatory 5% interest in all petroleum agreements to companies owned by natural persons of Liberian citizenship. While this equity interest may be carried or paid, depending on the business relationship between the Operator, participants and the Liberian company, the Authority will conduct pre-qualification of all Liberian companies wishing to participate in keeping with the pre-qualification criteria established which are not similar to the criteria adopted for international oil companies. A list of pre-qualified Liberian companies will be submitted to qualified international bidders to possible partnership in fulfillment of the amended petroleum law. Any company that is not pre-qualified will not be allowed to participate whether independently or as a participant in a joint venture with an international company.

In anticipation of conducting the Liberia Offshore License Round 2020, LPRA is soliciting applications for pre-qualification from Liberian companies wishing to participate in the bid round to be conducted from April 10, 2020-February 28, 2021.

II. Application Procedure

To the Covid-19 pandemic, the Authority has announced an extension of the time for submission of expression of interest (EOI) from Liberian Companies to be pre-qualified as prerequisite for participation in the Liberia offshore License Round 2020. All companies interested in being pre-qualified must submit a written expression of interest and provide the documents requested in this notice for expression of interest. Applications will only be accepted from March 17, 2020-July 31, 2020. All applications submitted after this date will not be considered irrespective of payment of fees as required in this notice. The timetable highlights key events appertaining to this notice for expression of interest.
